

VERZEO

MINOR PROJECT

- **Project Name:**

Web Development May Minor Project

- **Project Description:**

Create a Responsive Website Designing (RWD) for your college / institution /organization / industry / service. (i.e Not Shopping carts or ecommerce website).

Website should be informative about college / institution /organization / industry / service.

Website should contain at-least 4-5 pages (Home, About us, Contact Us, Services, Courses/ products/services etc)

Website should have registration page in contact us page

Include google maps, you-tube videos also

The webpage should contain Menu with responsive, and place carousel slider below menu.

Carousel images should be responsive. (in fact all the images which you place in webpages should be responsive).

Visit few websites related to your content to get some idea

Before starting the project prepare content (You can fetch content related to about us, services etc from other websites, but change content according to your requirements)

Website should have headings, sub headings , paragraphs, list items and hyperlinks to an other pages

Webpages should be responsive

User Bootstrap Responsive grid to get responsive designing

Softwares to be used:

Html, css, bootstrap
